HADDONSTONE

Trusted specialists in high-specification  
architectural stonework

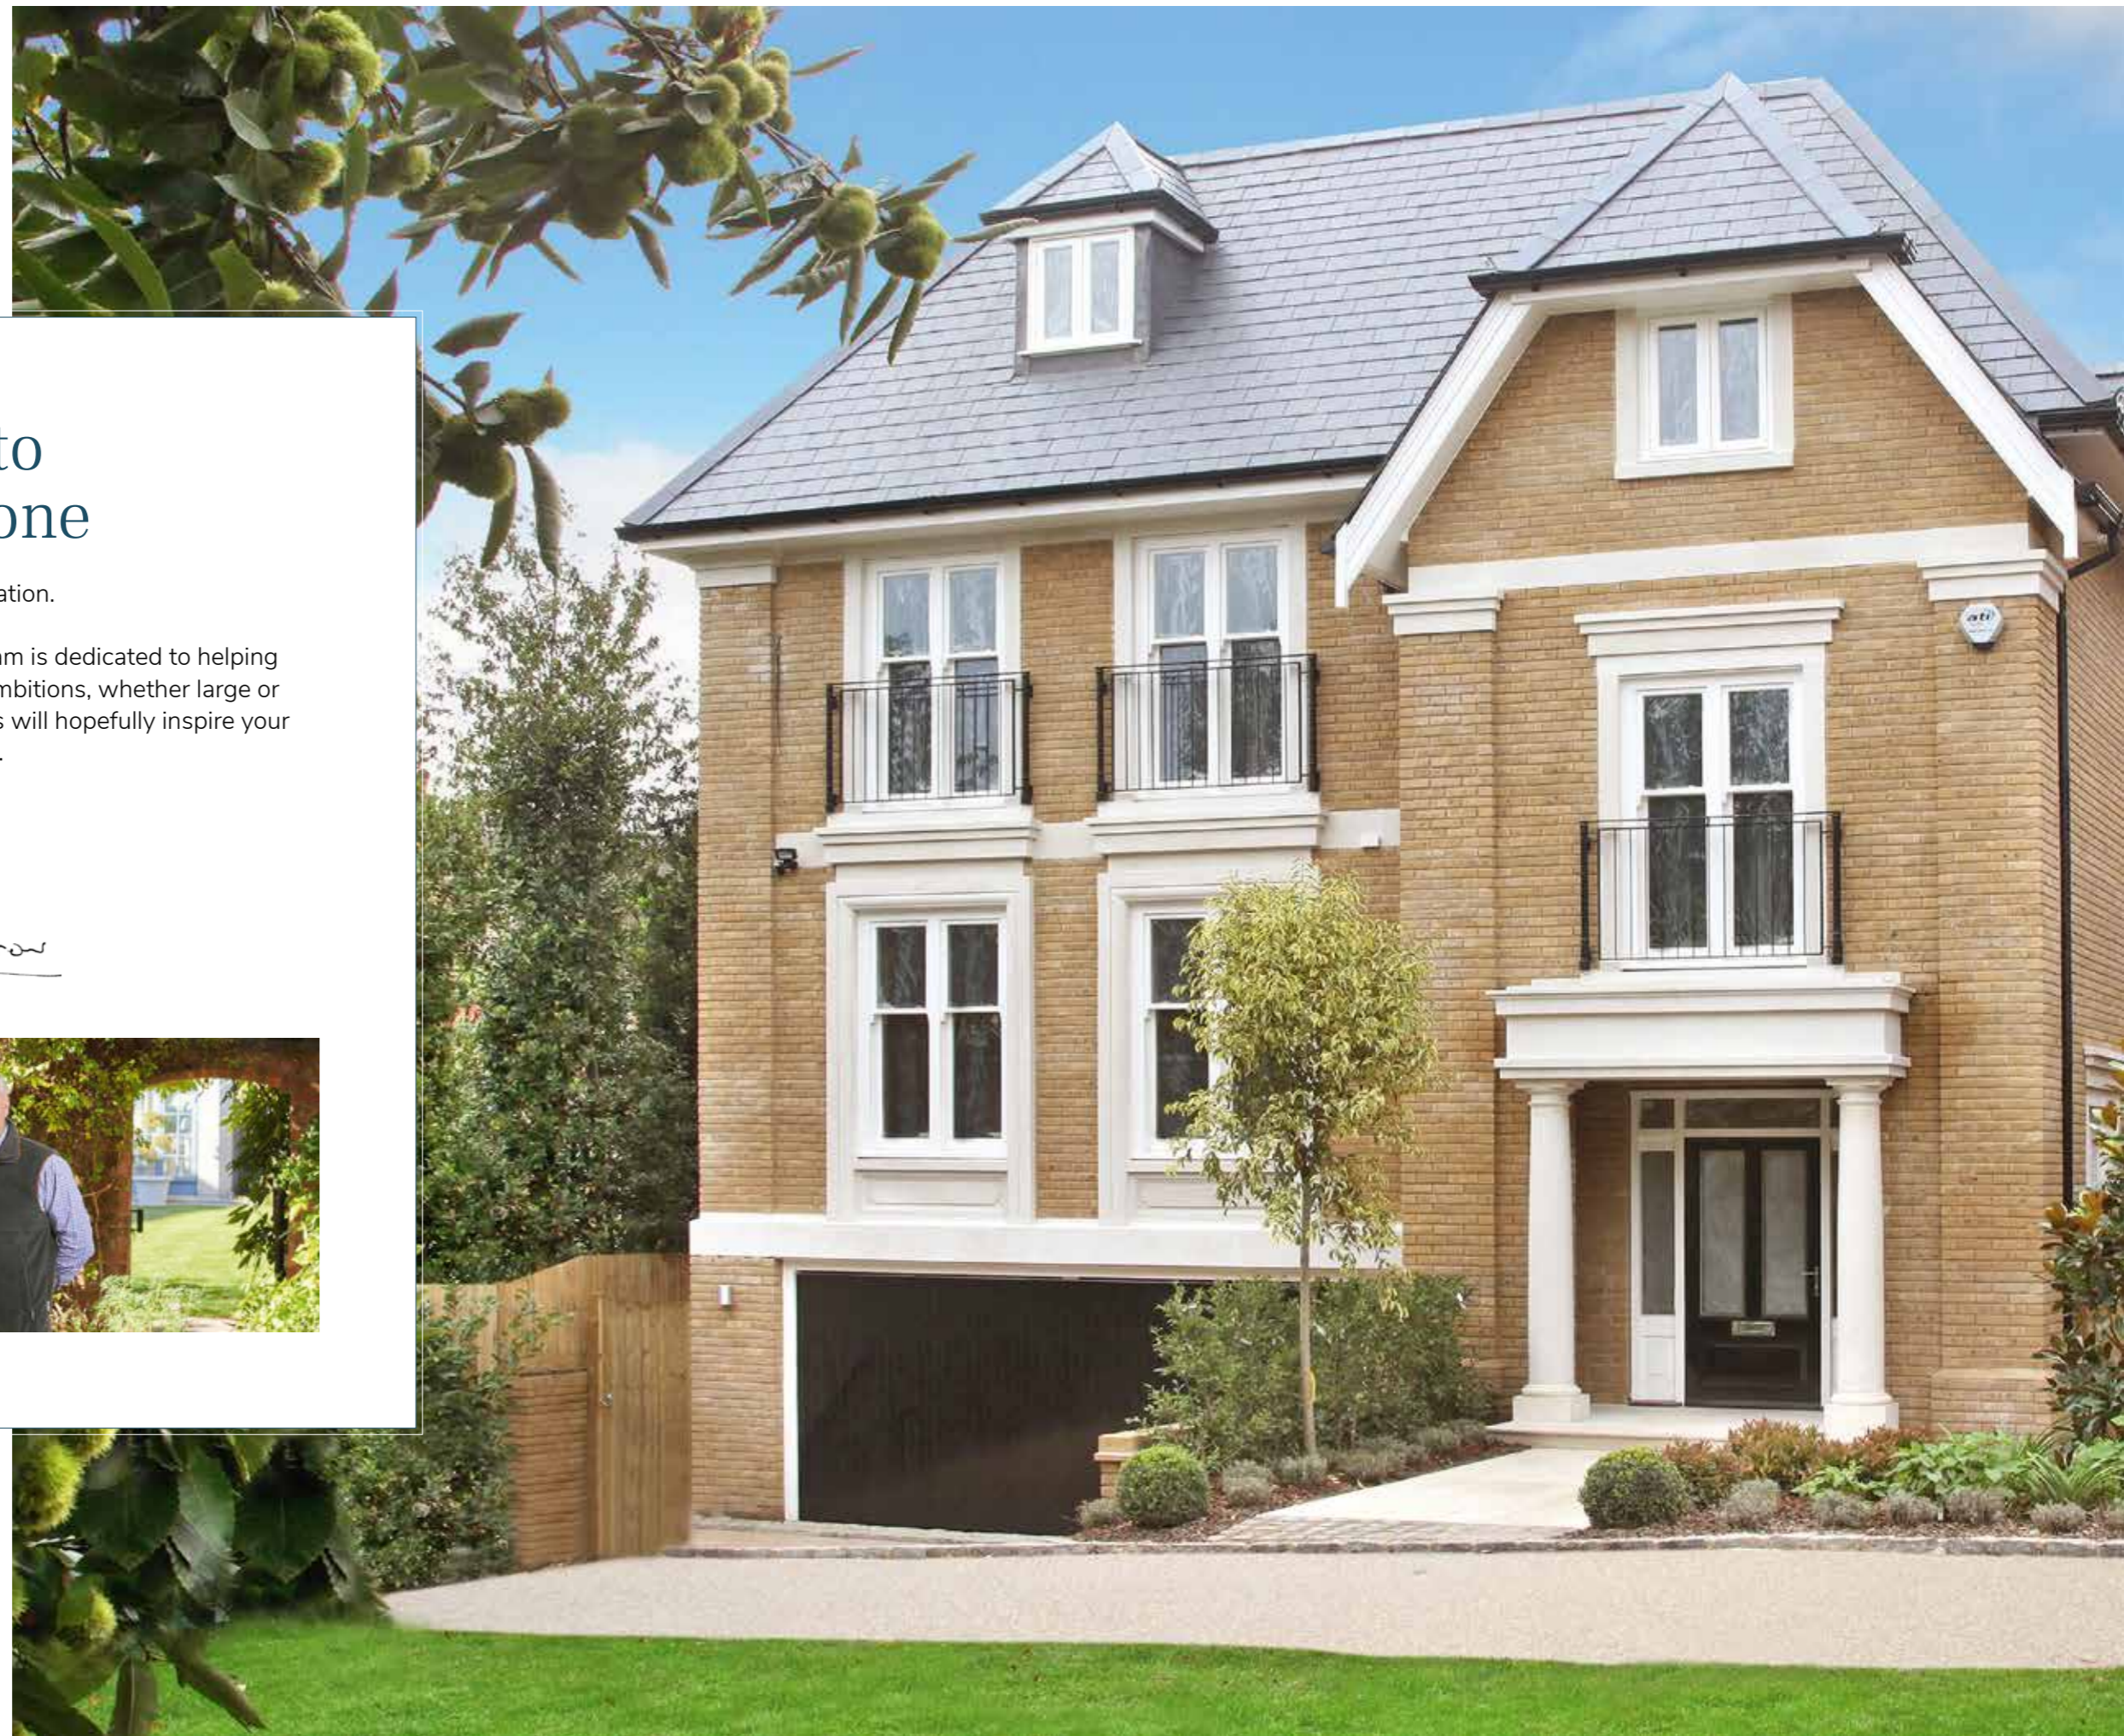

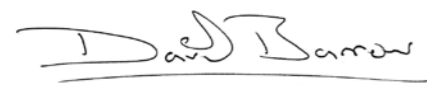

# Welcome to Haddonstone

A business 50 years in creation.

Our vastly-experienced team is dedicated to helping you achieve your project ambitions, whether large or small. The following pages will hopefully inspire your journey with Haddonstone.

**David Barrow,  
Managing Director**

## Our story

Haddonstone was founded by Bob Barrow in 1971, with the aim of producing high-quality decorative cast stonework. Working from his garage, Bob handcrafted a modest range of seven garden designs – six of which continue to be bestsellers today.

More than half a century later, the Haddonstone collection has grown to include over a thousand standard designs, including an enviable range of architectural components and the ability to create bespoke cast stonework.

## World-leading cast stone

The demand for our premium cast stone architectural designs has enabled us to significantly expand our portfolio.

Our architectural stonework has been used in the construction and renovation of a broad range of prestigious buildings and projects across the UK and globally.

Haddonstone USA, based in Colorado, extends our global reach, along with representation through an increasing group of international distributors.

## Growing facilities

From modest beginnings, our facilities now comprise a 54,000 sq ft purpose-built complex in Northamptonshire, comprising manufactory, design studio, extensive mould shop, laboratory and vapour curing chamber.

Over the years our premises have been extended, developed and modernised on multiple occasions. This ensures that Haddonstone remains at the forefront of technological advances in the design and manufacture of cast stone products.

Over the years, our values have always remained the same. Our team is dedicated to producing the finest-quality cast stone designs and providing you with exceptional service.

# First-class capabilities

We work with architects, developers, contractors and private clients to help them achieve their vision.

Our unrivalled expertise and production facilities enable us to cater for everything from lightweight retrofit designs to large structural units.

## Specialists in bespoke stonework

Alongside offering a broad range of standard architectural stonework, we are delighted to create bespoke products that meet our clients' individual design criteria.

With an in-house team of 15 dedicated, vastly experienced mould-making specialists and apprentices, as well as an extensive mould shop and manufactory, we can produce bespoke architectural stonework to almost any specification.

Our team will help you to meet your project goals, whether large or small.

---

## High-specification stonework for all projects

Using technical drawings, or simply a photograph, we will work directly with you, your architect, builder or estate manager.

From private residential new-build homes, extensions and renovations to large-scale commercial developments, our architectural solutions can meet almost any project requirements, whilst always meeting today's rigorous design, strength and safety standards.

---

*"We have been working with Haddonstone for a number of years. As a long-established, family-owned company, they have similar values to Octagon when it comes to maintaining excellence and perfection.*

*Their technical expertise and quality of work is always outstanding, and their stonework on some of our earlier developments looks as good today as it did when the buildings were initially completed."*

**David McColl, Head Buyer, Octagon Developments**

## The benefits of cast stone

Cast stone provides multiple benefits for builders, developers and architects alike.

A cost-effective alternative to natural stone, cast stone is chosen for its durability, versatility and strength, as well as its beautiful appearance.

## Our materials explained

### **Haddonstone (semi-dry cast limestone)**

Haddonstone is a high quality semi-dry cast stone, consisting of over 50% limestone aggregate. With a surface texture similar to Portland stone, Haddonstone is a favourable alternative to natural stone.

### **TecStone (wet cast limestone)**

Comprising over 60% natural limestone, TecStone is denser than Haddonstone with a higher compressive strength. When combined with structural reinforcement and cast-in fixings, TecStone is suited to projects where high-performance criteria is required.

### **TecLite (glass fibre reinforced)**

Although the finish of TecLite closely resembles that of stone, the use of thin wall construction and high strength-to-weight ratio means that the component weight is significantly reduced when compared with solid pieces. TecLite is ideal for retrofit, renovation and timber frame build projects.

## A team of passionate experts

We love what we do – and it shows. Every member of the Haddonstone team shares our core values to provide unrivalled expertise and outstanding levels of skill and craftsmanship.

Many of our colleagues have been with us for over 30 years, helping to deliver the cast stone products that our clients know and love.

All our products are handcrafted to order by our dedicated team. This means we maintain full control throughout the manufacturing process, so that you receive the very best stonework on the market today.

---

*“We enjoy working with Haddonstone. Their products are always of a consistently high quality and the team is always willing to consult with us on the best solution for individual jobs.”*

*We’ve worked with Haddonstone on every aspect of projects from the specification of the architectural elements right through to the final finishing of the stonework. Nothing is too much trouble for their team.”*

**Sean Pearse, Surrey Stone Solutions**

---

■ Above all, we’re passionate about creating products that will inspire you and last for many years to come.

---

■ We have grown to become an international market leader. However, to this day we continue to be a family-owned and managed company, and our values remain the same.

---

## Our commitment to you

Providing you with a personalised service and the very best cast stonework is at the heart of everything we do.

Our Building and Construction team is renowned for its care and technical expertise. Dedicated project managers will ensure the smooth running of your project from day one and will assist you throughout your entire journey with us.

---

*"As homeowners with limited knowledge of how to deliver our project vision, Frank and the team at Haddonstone have been invaluable in providing knowledge, guidance and support in converting our ideas into reality.*

*Frank has made himself available throughout our project, liaising with our architect, building contractor and directly with ourselves to ensure a smooth and timely delivery. Thank you Frank and the team for bringing our project to life."*

**Ian R, Cheshire**

---

# Restoration and replication stonework

Whether your project is residential or commercial and a renovation or a restoration, our experts are on hand to assist.

Regardless of style or age, we can help bring any structure back to life.

Using the latest in 3D technology, as well as more traditional techniques, our experienced team has assisted in the renovation and restoration of many historic and listed buildings worldwide.

■ Over the years we've helped to restore National Trust properties, hotels, private residences and listed buildings.

## Landscaping

To complement our Building and Construction designs, we offer an extensive range of contemporary, traditional and classical-style cast stone landscaping designs.

Our landscaping collection features many elegant and functional components from paving, steps and balustrade to pier caps, copings and stunning garden buildings that will transform any outdoor space.

## Home and Garden

As well as our comprehensive range of architectural stonework, we also offer a collection of complementary Home and Garden designs.

Our Home and Garden collection includes over a thousand standard designs, making it the most comprehensive range of its kind. With unrivalled craftsmanship, expertise and a broad range of options, we're confident that our collection includes the perfect products to suit any garden setting.

Discover the full collection on our website, or in the Product Range brochure.

# Our commitment to the environment

Haddonstone is proudly committed to sustainability, and we continually strive towards reducing our impact on both society and the environment.

Sustainability policies are embedded across our production processes, including protocols to avoid the use of hazardous substances and to prevent the release of contaminants into the atmosphere, watercourses and onto land.

As part of our commitment to supporting long-term sustainability and to reducing our environmental impact, we source only the highest-grade, natural British limestone aggregates from an ethically responsible UK supplier.
